Gridbased sans serif typeface 2007
Librito.de
www.librito.de

Inspiration for this typeface comes from the letters used for the announcements of arrival and departure at hamburgs metro stations. The font is based on a rigid grid of vertical fields. Up to five fields form a letter.

**THE TYPODARIUM PRESENTS
THE FULL RANGE AND DIVERSITY
OF CONTEMPORARY TYPOGRAPHY
ON 365 CALENDAR PAGES.**

Discover great old characters and refreshing young types. Learn more about the backgrounds, the designers and, of course, the suppliers of each individual font.

This year, it's in a collector's box to store and archive the calendar pages and includes all of the official holidays of participating countries and a marriage proposal we are all crossing our fingers for already.
